Lesson Objectives

- To discuss the different ways you can handle bills in QuickBooks
- To learn how to enter a bill in QuickBooks
- To use the Pay Bills window to pay a bill in QuickBooks

Using QuickBooks for Accounts Payable

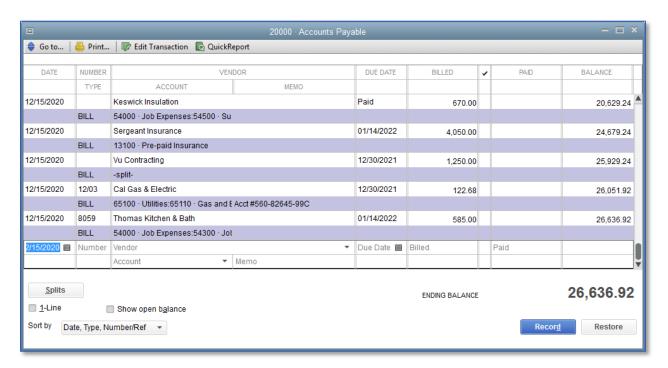

Some business owners, especially if they own smaller, home-based businesses, pay their bills when they receive them. Most business owners, however, find it more convenient to pay bills less often. (They also like keeping the cash in the company for as long as possible.) If you don't plan on paying your bills right away, QuickBooks can help you keep track of what you owe and when you owe it.

The money you owe for unpaid bills is called accounts payable. QuickBooks uses the Accounts Payable account to track all the money you owe. Like any QuickBooks balance sheet account, the Accounts Payable account has a register where you can view all your bills at once.

To see the Accounts Payable register:

- 1. From the **Lists** menu, choose **Chart of Accounts**.
- 2. Double-click 20000 Accounts Payable in the list to open the register.

The register keeps track of each bill you have entered, shows you the due date, and keeps a running balance of all the bills you owe. As a business owner, this helps you forecast your cash flow, and the QuickBooks reminder system helps you pay your bills on time.

3. Press **Esc** twice to close the open windows.

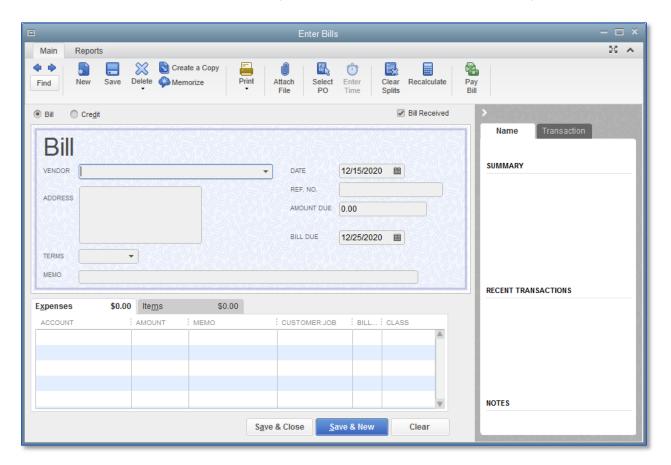

Entering Bills

When you receive a bill from a vendor, you should enter it into QuickBooks as soon as you can. This keeps your cash flow forecast reports up to date and doesn't give you the chance to set the bill aside and forget it.

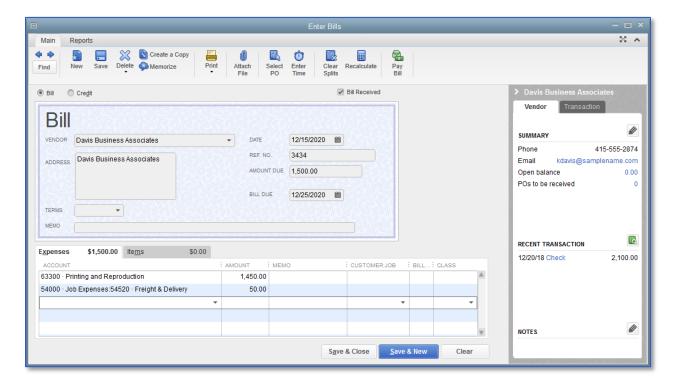

To enter a bill:

1. From the Vendors menu, choose Enter Bills (or choose Enter Bills from the Home screen).

- 2. In the **Vendor** field, enter the vendor name.
- 3. In the Date field, enter the date of the bill.
- 4. In the **Ref. No.** field, enter the bill number.
- 5. In the Amount Due field, type 1500.
- 6. Enter the appropriate terms as well as any necessary memo information.

7. Use the **Expenses** tab to enter expenses from the bill and post them directly to expense accounts (you can use more than one line to refer to different types of expenses), and specify the dollar amount of each expense. The amounts should add up to the total amount due on the bill.

8. Click Save & Close to record the bill.

IMPORTANT: You can also enter bills and vendor credits directly in the Accounts Payable register, which may allow for faster data entry. However, this does not provide as much room for memos or allow for multiple expense accounts.

NOTES

Paying Bills

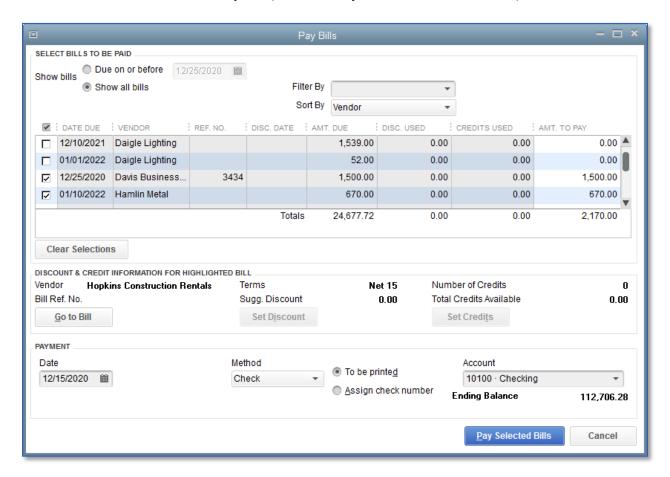

When you start QuickBooks or open a QuickBooks company file, a Reminders window appears to tell you whether you have transactions to complete, such as bills to pay or money to deposit. (If you don't see the Reminders window, turn it on by choosing **Preferences** from the **Edit** menu.)

When QuickBooks tells you there are bills due, you can display the Pay Bills window and select the bills you want to pay.

To pay a bill:

1. From the Vendors menu, choose Pay Bills (or click on Pay Bills from the Home screen).

- 2. Check the boxes next to the bills you wish to pay.
- 3. Ensure that you have the proper payment method settings selected, as well as the bank account from which you want the bills to be paid.
- Click Pay Selected Bills.

5. In the next window you can choose to pay more bills, print checks for the selected bills, or click **Done** to exit the module and print checks later.

IMPORTANT: Click the Print Checks icon from the Home screen to access your checks marked Print Later.

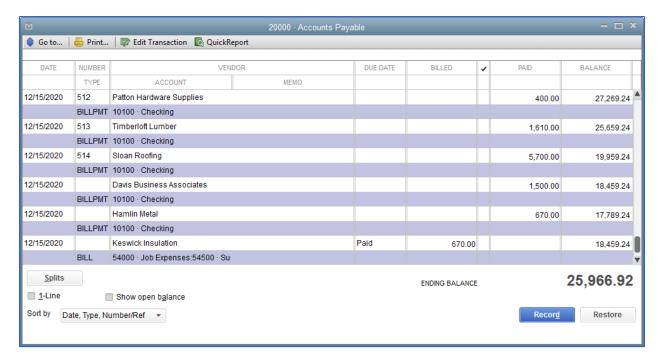

How QuickBooks Records Your Bill Payment

When you pay \$1,500 on a bill through the Pay Bills window, QuickBooks makes an entry in the Accounts Payable register, showing a decrease of \$1,500 in the total payables. It also creates a check from your chosen bank account to pay the bill.

To see the entry in the Accounts Payable register:

- 1. From the Company menu, choose Chart of Accounts.
- 2. In the Chart of Accounts, double-click the Accounts Payable account.

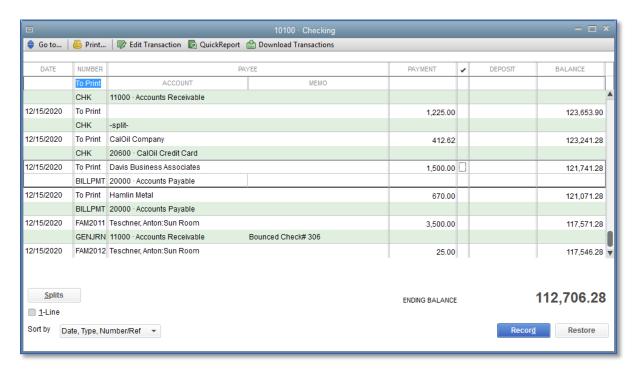

3. Close the Accounts Payable register.

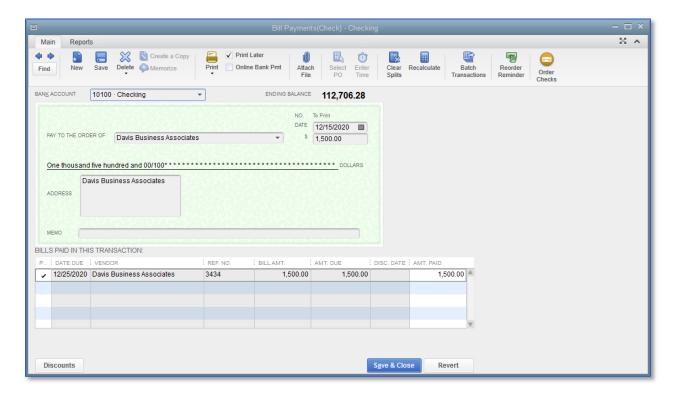

To see the entry:

1. In the Chart of Accounts, double-click 10100 Checking.

- 2. Select the transaction you wish to view.
- 3. Double-click on the transaction or on the toolbar, click **Edit Transaction**.

4. You can edit the transaction or click Save & Close.

IMPORTANT: You can also open, view or edit this transaction by opening it in the same fashion from the Accounts Payable register.

NOTES

Entering and Paying Bills — Review Questions

1.	1. You use the account to track money that	you owe to vendors.
2.	2. List the two steps involved in using the accounts payable features in Quick	Books:
	a	
	b
