- Learn how to create job estimates
- Find an estimate in a data file
- Learn to duplicate an existing estimate
- Create an invoice from an estimate
- Display project reports for estimates
- Update a job's status
- Make an estimate inactive

Turn on Estimates and Progress Invoicing

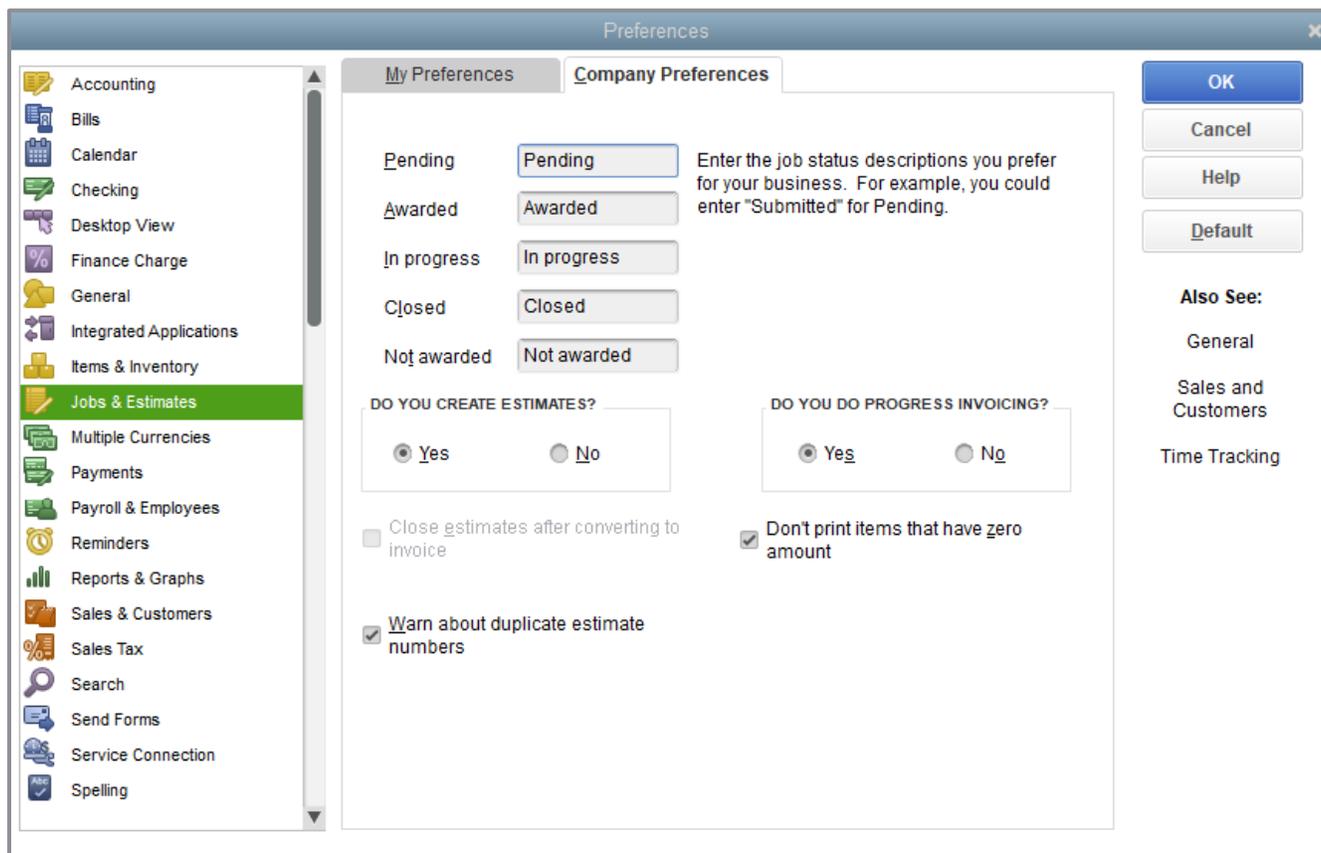

An estimate is a description of work or products you propose to sell to a current or prospective customer. (You might refer to an estimate as a quote, a proposal or some other term.) You can create multiple estimates for each name (customer or Customer:Job combination). If the customer accepts an estimate, you can turn the estimate into an invoice, modifying it as necessary. When you have actual costs and revenues, you can compare them to your estimated costs and revenues to see if you were over or under the estimate.

Estimates are non-posting transactions. Although they are recorded in QuickBooks, they do not affect any financial reports or income and expense balances. QuickBooks allows you to create invoices from estimates, either by transferring the entire estimate to an invoice or by choosing a percentage or selected items to invoice. The ability to bill for only a percentage of the estimate or selected items is called *progress invoicing*.

Step-by-Step: Turn on Estimates and Progress Invoicing

1. Make sure you are signed into the QuickBooks company as the Admin user. (If other users have been set up on other computers to access the company in multi-user mode, ensure they are not signed in and you are in single-user mode.)
2. From the Edit menu, choose **Preferences**.
3. Click **Jobs & Estimates** in the left panel.
4. Click the **Company Preferences** tab to display the Jobs & Estimate preferences.
5. Click **Yes** after Do You Create Estimates?
6. Click **Yes** after Do You Do Progress Invoicing?
7. Click **OK** to record your selections then close the Preferences window.

NOTES

Create an Estimate

Step-by-Step: Create an Estimate from the Customer Center

1. In the Customers & Jobs list of the Customer Center, select the name of the customer or job for which you would like to create an estimate.
2. Right-click on that name and select **Create Estimates**.
3. Complete the form with the items and pricing you would like to appear on the estimate.

ITEM	DESCRIPTION	QTY	U/M	COST	AMOUNT	MARKUP	TOTAL	TAX
Appliance	Microwave oven	1		385.00	385.00	10.0%	423.50	Tax

				SUBTOTAL	4,990.00			
				TAX	1,046.75			
				MARKUP	200.76			
				TOTAL	6,237.51			

4. Click **Save & Close** to save the estimate.

IMPORTANT: You can also access the Estimates window from the Customers drop-down menu or from the Home screen.

IMPORTANT: If you are giving or sending this form to a customer, you may wish to create and choose a template design that reads Quote or Proposal or some other term.

NOTES

Create Multiple Estimates

You can easily create multiple variations of an estimate without having to reenter all the data. First, create a duplicate of the estimate, then make the modifications necessary for the second bid.

Step-by-Step: Create a Duplicate of an Existing Estimate

1. In the Main tab at the top of the existing estimate, select **Create a Copy**. (Two other ways to do this are to right-click on any blank area in the body of the estimate and choose **Duplicate Estimate**, or use the **Edit** drop-down and select **Duplicate Estimate**.)

The screenshot shows the 'Create Estimates' window in QuickBooks Desktop. The 'Main' tab is active, and the 'Create a Copy' button is highlighted with a red box. The window displays an estimate for 'Abercrombie, Kristy:Kitchen' with the following details:

NOTES

Create an Invoice from an Estimate

Once you have created an estimate and the customer has approved it, you can use the estimate to invoice the customer.

Progress invoicing (also known as progress billing) lets you invoice for jobs you complete in phases. When you use progress invoicing, you first create an estimate for the job (which you might or might not give to the customer, depending on your needs – some QuickBooks users use estimates for internal purposes only). Then, as you complete each phase, you can easily transfer items from the estimate to an invoice.

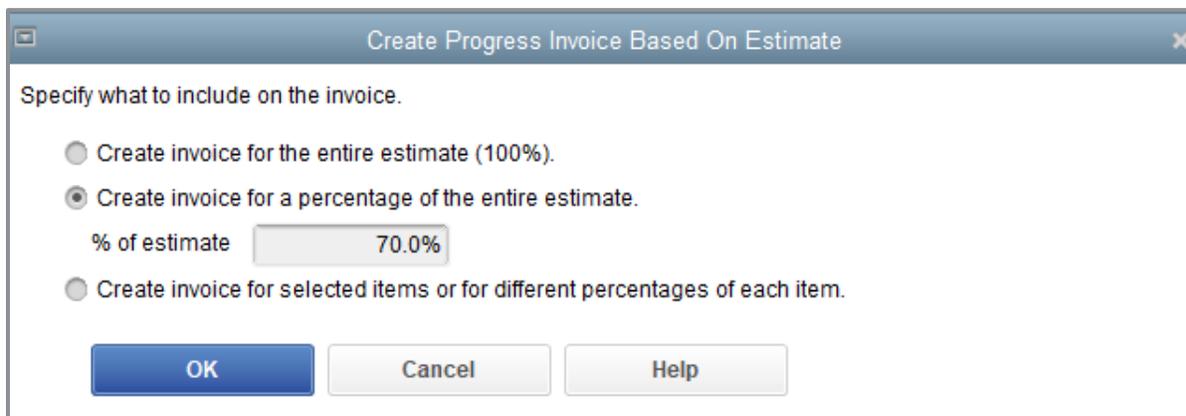

Step-by-Step: Create an Invoice from an Estimate

1. Click **Customers** on the menu bar.
2. In the Customers & Jobs list, choose the Customer:Job you wish to progress bill.
3. Right-click on that name and select **Create Invoices**.
4. Press **Tab** to leave the Customer:Job field. The Available Estimates window appears.

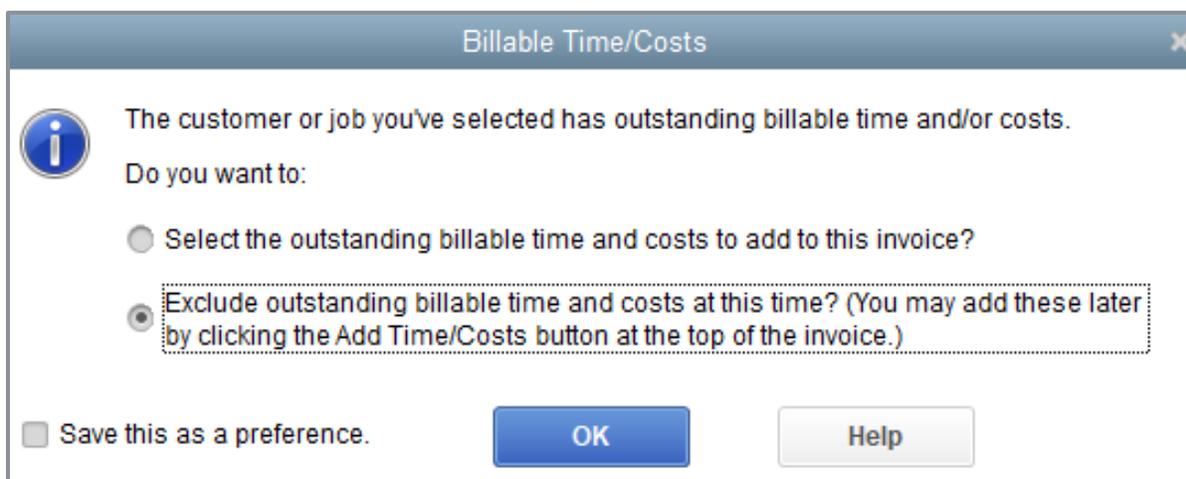

DATE	AMOUNT	CUSTOMER:JOB	EST. NO.
12/15/2025	6,237.51	Abercrombie, Kristy:Kitchen	615

5. Highlight the estimate your customer accepted, then click **OK**.

6. Select **Create invoice for a percentage of the entire estimate.**
7. Enter the percentage you wish to bill for in the **% of estimate** field.

8. Click **OK.**
9. Since you are invoicing from the estimate, you probably don't want to include any billable items or costs. If the Billable Time/Costs window appears, choose **Exclude outstanding billable time and costs at this time? (You may add these later by clicking the Add Time/Costs button at the top of the invoice.)** Click **OK.**

10. You may choose to use a different invoice template for progress invoices, in which case select the appropriate template from the **Template** drop-down.

11. Make any edits (such as the date, adding a memo, etc.). Select **Save & Close**.

12. Close the Customer Center.

IMPORTANT: You can also access the Invoice window from the Customers drop-down menu, from the Home screen or by selecting **Ctrl+i**.

NOTES

Display Reports for Estimates

Because you've just completed a progress invoice, you can see how QuickBooks records this on the Job Progress Invoices vs. Estimates report. This report shows job status, estimate total, total invoiced from the estimate on progress invoices, and the percentage of the estimate already invoiced on progress invoices.

Step-by-Step: Display the Job Progress Invoices vs. Estimates Report

1. From the Reports menu, choose **Jobs, Time & Mileage**.
2. Choose **Job Progress Invoices vs. Estimates**. (The default date range is This Fiscal Year-to-date. Change that if necessary. You can even choose **All**.)

3. Close the report window.

Update Job Status

Every time you change the status of a job, you should update its status in the Customer:Job list. For example, the estimate for the Office Remodel is no longer pending; Wilma Nelson awarded you the job and you have started work.

Step-by-Step: Update the Status of a Job

1. Click **Customers** on the icon bar.
2. In the Customers & Jobs list, select the Customer:Job with which you wish to work.
3. Right-click to select **Edit Customer:Job**.
4. Click the **Job Info** tab.
5. In the Job Status field, select **In progress**.

The screenshot shows the 'Edit Job' window with the following details:

- Window Title: Edit Job
- JOB NAME: Office Remodel
- CUSTOMER: Nelson, Wilma
- CURRENT BALANCE: 0.00
- Link: How do I adjust the current balance?
- Left Panel Tabs: Address Info, Payment Settings, Additional Info, Job Info (selected)
- Main Fields:
 - JOB DESCRIPTION: (empty)
 - JOB TYPE: Remodel
 - JOB STATUS: In progress (dropdown menu open)
 - START DATE: (empty)
 - PROJECTED END DATE: (empty)
 - END DATE: (empty)
- Dropdown Menu Options: None, Pending, Awarded, In progress (highlighted), Closed, Not awarded
- Bottom Left: Job is inactive
- Bottom Right: OK, Cancel, Help

6. Enter the **Start Date**.
7. Enter the **Projected End Date**.
8. Click **OK**.
9. Close the Customer Center.

Make Estimates Inactive

Once a customer has accepted one of the estimates for the job and you have started work, you might want to make any unaccepted estimates for this job inactive. When you make an estimate inactive, QuickBooks keeps a record of it but does not use the numbers in reports. (This is not the same as deleting it; deleting an estimate will remove the record from QuickBooks.)

Step-by-Step: Mark an Estimate Inactive

1. From the Customer Center, find the relevant Customer:Job, and in the Transactions Tab on the left, double-click on and open the estimate you wish to deactivate.

The screenshot shows the QuickBooks Customer Center interface. The main window is titled 'Customer Center: Abercrombie, Kristy Remodel Bathroom'. The left sidebar shows a list of 'Active Customers' with a search bar and a list of customer names and balances. The main area is divided into two sections: 'Job Information' and 'Transactions'.

Job Information:

- Job Name: Remodel Bathroom
- Customer Name: Abercrombie, Kristy
- Job Type: Remodel
- Job Status: In progress
- Start Date: 10/23/2025
- Projected End: 12/11/2025
- End Date: 12/23/2025
- Bill To: Kristy Abercrombie, 5647 Overess Hill Rd

Transactions:

The Transactions tab is active, showing a list of transactions for the job. The table has columns for TYPE, NUM, DATE, ACCOUNT, and AMOUNT.

TYPE	NUM	DATE	ACCOUNT	AMOUNT
General Journal	FAM2011	12/17/2025	11000 Accounts Receivable	7,633.28
